DETAILED ACTION

Drawings

1. The drawings filed on 02 November 2000 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948, as well as the accepted corrections submitted by Applicant in paper 13 on 06 August 2003. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

Allowable Subject Matter

2. Claims 27-29 and 37-66 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Claims 27, 49, and 55, as well as their dependent claims, are found to be allowable over the submitted prior art because the prior art fails to teach or reasonably suggest the recitations found therein including and extending shaft having a first and second region for receiving the flexible member. Asnis (5059201) teaches a shaft having one region and a tube having one region, which cannot anticipate the claimed invention, much less perform the method claimed, since not only are they placed in a different orientation, but they function opposite to the teachings of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
